INCREDIBLE BUT TRUE

DEBBIE ROCHON & ADAM BROOKFIELD

This is a true story.
Appalachian Legend tells of grisly deaths and unexplained circumstances surrounding the legend of Crazy George. Myth that relies on inexplicable events, gossip, wives' tales and just a little "bullshit".

Who is this strange recluse?
Does he exist hiding in the hills of Tennessee? If so, it might explain some of the strange occurrences in recent years surrounding mysterious deaths & gruesome murders.

What lurks under the seedy underbelly of small town America? No one truly wants to know the secrets that lie herein. The "good ol' boys" have been cooking up a strange brew of sex, skunk, & rock n roll.

Like a **skunkape, bigfoot,** sasquatch, or yeti, they've made their own Frankenstein.

Is the legend true?
Could this have happened under the watchful eyes of an entire community? Much of the film is based on actual events. Some of the events that happened during filming, happened.
Some of the events depicted probably never happened at all.

You decide.....
